Prices Effective August 2021

- Prices for unpackaged prints. Cello bags and card backings are available for sizes A4, A3, A2 and A1.
- Stretched canvases are supplied with protective corners. Price does not include shipping box.
- Canvas stretching - Prices are calculated using 30mm stretcher bars. Add 5% for 38mm
- ** Additional handling care required when made with 200 - 240gsm Fine Art Smooth or Elite to avoid creasing.
- *** Additional handling care required when made with 310gsm Cotton Rag or 320 Elite to avoid creasing.
- I only use outstanding HP wide format printers. Wilhelm Print Permanence testing with HP pigment inks and my selected papers has achieved print permanence of >200 years when displayed under standard glass.
- Wilhelm Print Permanence testing with HP pigment inks and my selected HP Canvas has achieved print permanence of >100 years.

FINE ART SMOOTH - 200gsm

This paper allows professional and enthusiast fine art photographers and printers to achieve the artistic interpretation of an image by drawing out sharp crisp details, while maintaining vivid colors.

Key Benefits

- Excellent image sharpness
- Large colour gamut
- Made from cellulose
- Acid free
- Durable light resistance with pigmented inks
- Excellent for Fineart printing, photography and portrait

SMOOTH COTTON RAG - 310gsm

With no optical brighteners and the longevity, image stability and a clean matt surface required for the very best in fine art printing.

Key Benefits

- 100% cotton rag
- Very smooth
- No optical
- High colour consistency and gamut
- Water resistance

HP PROFESSIONAL MATTE CANVAS - 392gsm

Provides users with a cotton & polyester blend canvas with a matte surface finish that is suitable for fine art reproductions, digital artwork, or printing photographs of museum quality.

Key Benefits

- Large colour gamut
- Water Resistant and durable
- Long lasting in combination with HP pigment inks

ELITE PRO - 240 and 320gsm (Textured)

100% Cotton Rag art paper. This product is a wonderfully made French Cold Press Textured art paper with the sharp random texture and more flexible nature that only cotton rag can give. The construction does not contain any optical brighteners in the base or the coating and the tone is a pleasant natural shade designed for fine art reproduction.

Key Benefits

- Large colour gamut
- Resistance to Humidity - Very high
